

Z-Firm LLC Press Release

For Release 9 a.m. EDT, September 1, 1998

FaxRush® Ships for GoldMine Enterprise

Powerful document automation server available immediately for GoldMine Enterprise users.

Petaluma CA -- September 1, 1998: Just days after GoldMine Enterprise shipped, FaxRush support shipped for GoldMine users on Microsoft SQL Server, Oracle v7.x and Borland Interbase.

"The FaxRush fax and print server is an important tool for many GoldMine sites," said Rafael Zimberoff, product manager, "It is important that we be there when these users move to GoldMine Enterprise."

FaxRush offers a wide range of document automation services to GoldMine users, including fax and print merge, internet fax, mailing labels, and more. It fax-enables remote users, and is a powerful tool for GoldMine automated processes. FaxRush v4.1, which shipped in May, 1998, supports all versions of GoldMine, from GoldMine v2.5DOS through v4.0 Enterprise. FaxRush will support Oracle 8 and other SQL platforms in the near future.

Z-Firm LLC is the developer of FaxRush. Founded in 1992, Z-Firm has published GoldMine add-on software for three years. Z-Firm was named Developer of the Year by GoldMine Software Corp. in 1997 and 1998. Z-Firm's flagship product, FaxRush, was awarded 'Best of Fax' 1998 by the American Facsimile Association. Z-Firm is based in Petaluma, California, phone (707) 762-4832, www.faxrush.com.
